

Wadaboo

Purchasing platform with reverse auction system and
collaborative purchasing pool.

We seek to organize and automatize
the purchasing processes of many
companies
companies in Latin America,
achieving lower costs in each operation.

In Latin America, there are 15 million
SMEs, which carry out transactions worth
several million dollars every day.

Our main target market is Latin America, where SMEs account for 98% of the total business map.

Timeline

- NOV 2016

We came up with Wadaboo, and we started to develop the platform

- JUN 2017

Wadaboo SAS is registered and Wadaboo.com is created

- JAN 2018

We start to actively participate in business and technology communities

We launch, for the first time the MVP. The development team gets bigger.

-AUG 2019

- FEB 2021

Relaunch the beta version with good feedback from users.

- MAY 2021

Wadapay is born, a cryptocurrency for Wadaboo users to use as payment method.

Roadmap

June 9, 2021

200,000,000,000 WAPAY are created (Enhanced version of WPAY).

June 15, 2021

Seed phase begins (PRE-IDO)

Mid-late July

Pre-sale begins on Unicrypt

WAPAY listed on Pancakeswap with good liquidity

Q3 2021

Wadaboo invests in marketing Argentina

Integration of Wadapay with Wadaboo

We start the development of Android wallet

Q4 2021 - Q1 2022

Wadaboo opens operations in Chile

Wadaboo invests in marketing Chile

"Wadapay Mastercard" prepaid card is launched

Q2 2022 - Q3 2022

We are trying to open in other exchanges

Wadaboo opens operations in Colombia and Brazil

Q4 2022 - Q1 2023

Wadaboo opens operations in Mexico, Spain and USA

We invest heavily in marketing and advertising in these countries.

WP wadapay

Current problems I

- ❑ Disorganized purchases, without planning.
- ❑ Limited suppliers, which means that purchases are not 100% effective.
- ❑ Private processes are not transparent.

Current problems II

- ❑ Purchases without feedback at the right time, therefore loses the possibility of renegotiation.
- ❑ Employees with negotiation skills, 100% dedicated to the purchasing task.
- ❑ Entrepreneurs and SMEs without purchasing power (lack of liquidity). They increase costs without being able to transfer that value to the sale price, losing profit.

Wadaboo is an automated platform for:

- ❑ Transparency of the entire purchasing process for entrepreneurs and SMEs.
- ❑ Organize and automate several products from different categories in a single process.
- ❑ Access to a whole ecosystem of suppliers from a wide variety of items.
- ❑ Automatically renegotiate the price of each product before the end of the purchase process.

Wadaboo is an automated platform for:

- ❑ **Suppliers and buyers** know at the same time who has won and why. (feedbacks)
- ❑ There would **no longer** have to be qualified personnel only dedicated to the purchasing task.
- ❑ To reduce the costs of the buyers, no matter how small the company is, being able to form **collaborative purchasing pools** and thus have access to lower price

¿How it work?

15.000.000

active companies that are SMEs in Latin America and that carry out many transactions every day.

15%-20%

SAVINGS ON PURCHASES

WP wadapay

How much does Wadaboo charge?

Only suppliers are charged. Buyers are not charged at all.

- From \$1 to \$15000 per month NO fee is charged.
- From \$15001 to \$45000 per month a 4% fee is charged.
- From \$45001 to \$200000 per month a 3.5% fee is charged.
- Over \$200001 per month a 3% fee is charged.

Main revenues and expenses

Main expenditures

- MARKETING
- CAPITAL RAISING COSTS
- DESIGN
